

Ceiling outlet Dimmer Zigbee

Technical data

Voltage	100-240Vac 50/60 Hz
Max. dimmer load	200W LED
Dimming	Trailing edge
Switch input	230Vac
Exterior dimensions	Ø83 mm, H: 30.5 mm
Possibility of through wiring – number of Torx terminals on the back	Yes, max. 4 × 1.5 mm <sup>2</sup> / 3 × 2.5 mm <sup>2</sup> conductors
Possibility of through wiring – number of push terminals	Yes, 3 × 0.75 mm <sup>2</sup> / 2 × 1.5 mm <sup>2</sup> conductors
Possibility of through wiring – number of Torx terminals on the front	Yes, max. 2 × 0.75 mm <sup>2</sup> / 1 × 1.5 mm <sup>2</sup> conductor
Cable load	max. 5 kg
IP rating	IP20
Material	Aluminium, plastic
Environment	Indoors
Warranty	5 years
Approvals	CE

Product information

- Zigbee trailing edge dimmer (based on latest Zigbee 3.0 protocol)
- Talks with Homey
- Dimmer output terminals on front and back
- Trailing edge dimmer: 5-200W LED
- Minimum dimming level and startup brightness setting function
- Input and output with screw terminals
- Can be controlled by universal 230V input single wire push switch
- Memory function for dimming
- Fits in an European standard wall box
- Compatible with universal Zigbee gateways
- Power metering via Homey
