

Technical data

| | |
|------------------------------------|--------------------------------|
| Voltage | max. 120V |
| Terminal current rating | 15A |
| Expected lifespan | 50,000 hours |
| Dimension connector box | L: 62,5 mm, W: 44 mm, H: 26 mm |
| Operating temperature | -20° - +45° |
| Insulation class | Class III |
| Material | Plast |
| Environment | Indoor and outdoor |
| Warranty, product / surface | 7 years |
| Approvals | CE, RoHS |

Product information

- Serial connector for Low Profile Flexible G2

| Item no. | EAN no. | Type |
|----------|---------------|--|
| 98712043 | 5704629004375 | Serial connector for Low Profile Flexible G2 |

NB: Always use cables of a type approved for permanent installation according to the current legislation. If the cables are in contact with the lamp cover, use cables with an operating temperature of at least 70° C.
